EDUCATION

Rajkiya Engineering College Banda   Banda, Uttar Pradesh
Bachelor of Technology in Information Technology with 7.6 CGPA   *July 2024*

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript
Frameworks & Libraries: Next.js, *React.js*, *Node.js*, Express.js, Mongoose, Tailwind CSS
Database: MongoDB
Tools & Platforms: *Redux Toolkit*, Git, GitHub, Chrome Developer Tools

EXPERIENCE

Rezo.ai   Jan 2025 – Present
Frontend developer intern   *On Site*
- Built internal dashboards to help teams track and manage **AI call automation** workflows, improving operational efficiency and reducing manual effort by **30%**.
- Integrated Microsoft **Clarity** for user behavior analysis via session replays and heatmaps, optimizing user experience and engagement.

EZSync   April 2024 – June 2024
Fullstack Developer Intern   *Remote*
- Developed a web application using **React.js** and **Redux** for an **AI-powered interview preparation platform**.
- Designed and implemented an **interview and analytics dashboard**, integrated APIs, deployed on **AWS**, and used **S3 buckets** for storing static assets.

PROJECTS

BlogWrite | *JavaScript, React, Node.js, MongoDB, Socket.io, Tailwind CSS*   **Live site**
- Created a **full-stack Blog application** enabling users to **read**, **create**, **update**, and **delete** blogs, featuring an **intuitive** and **responsive UI** along with a robust **authentication and authorization system**.
- Reduced page load time approx by **20%** through implementing lazy loading for images and code splitting, improving user engagement.
- Developed **user and admin dashboards**, **like**, **comment**, **follow/unfollow**, and **share** features.

File Sharing Application | *JavaScript, React, Express.js, MongoDB, Cron job, Tailwind CSS*   **Live site**
- Built a web application to share media files with others via clipboard link or email, streamlining file sharing processes.
- Implemented file uploading, sharing links by email, and sharing using QR, enhancing security and usability.
- Implemented **Cron jobs** to schedule file clean-up and auto-delete expired files after **24 hours**, optimizing storage and performance.

NPM Package (chatgpt-typewriter-cursor) | *Rollup, TypeScript, React.js, Tailwind CSS*   **Live site**
- Developed an NPM package to create a ChatGPT cursor animation effect, enhancing the user experience for developers.
- Provided parameters to the component to generate the desired animation, downloaded 100+ times within the first month.

HONORS AND CERTIFICATES

- Mentor in Student Developer Club REC Banda, guiding **100+ students**.
- Participated in Data Structure in C++ cohort from Coding Ninjas   **Certificate**
- Participated in a **24-hour hackathon (HackTech)** focused on building given technology solutions.
